# About Mule Extracts

We are a family-owned cannabis brand based out of Estacada, OR on a mission to make accessible THC infused products of the highest quality.

Sourcing flower from some of Oregon's best cultivators, we craft a variety of full-spectrum extracts that capture the unbeatable natural freshness and flavor of the cannabis plant. Offering a wide range of products, we have something for everyone from the curious newcomer to the seasoned connoisseur.

**Choose your journey and  
Take the High Road with Mule Extracts!**

## KICKERS

Available in several flavors and unique cannabinoid ratios, Mule Kickers take edibles to the next level. Made with full-spectrum, strain specific, live resin extracts, Mule always kicks harder. "The Quad" is the first of its kind, packing all four major cannabinoids into one bite for an edible experience unlike any other.

## PURE LIVE RESIN GLASS CARTS

Experience quality cannabis extraction in its truest form with our new Pure Live Resin Glass Cartridges. These carts offer a premium and portable extract experience in a unique and sleek hardware with an internally heated ceramic element for optimal air flow and full flavor upon every draw.

## DANK TANKS

Armor up with our newest vessel, the Dank Tank. Enjoy the explosive flavors of full-spectrum, pure live resin in a durable, rechargeable all-in-one designed for tactical discretion. Fire up & get blasted anywhere, anytime with this stealthy, handheld hardware. With the Dank Tank in your arsenal, you'll always be equipped for the High Road Ahead.

## MULESHINE

Savor the moment with our highly potent cannabis syrup crafted from full-spectrum live resin extracts, available in a variety of unique flavors, doses, and curated cannabinoid ratios. Enjoy it straight from the bottle or use it as a mixer to take your favorite beverage to new heights. Shake it up and taste what the buzz is all about!

## KICKSTICKS

We kick flower up a notch by infusing it with high quality cured resin, and wrapping it in natural, unbleached rolling papers for a smooth smoke. When crafting our pre-rolls, we infuse the flower directly, rather than simply coating our papers, which ensures a slow, clean burn every time.
